

# CERTIFICATE OF CONFORMITY

This is to certify that

## 'Waterproof Sealant' Liquid Applied Membrane System

### Product description

The Liquid Rubber Holdings Ltd.'s Waterproof Sealant is a Liquid Applied Membrane system that uses a rapid setting technology to provide a durable, wind and moisture resistant membrane that can be applied to a range of nominated roof, deck and adjacent wall substrates. The system comprises:

- Liquid Rubber Coatings 'Waterproof Sealant';
- Liquid Rubber Coatings Butyl Tape
- Liquid Rubber Coatings Geofabric reinforcing tape.

### Product purpose or use

The Waterproof Sealant Liquid Applied Membrane system is intended for use on new and existing roof substrates in accordance with the requirements described in the technical literature.

E-Mail: [bcsc@beal.co.nz](mailto:bcsc@beal.co.nz)  
Website: [www.beal.co.nz](http://www.beal.co.nz)

### Complies with the New Zealand Building Code:

- Performance Clause B1.3.2
- Performance Clauses B2.3.1 (b)
- Performance Clause D1.3.3
- Performance Clause E2.3.1 and E2.3.2
- Performance Clause F2.3.1
- Compliance with other clauses have been considered and found not applicable.

### Subject to the following:

#### Limitations of use -

A. All designs and construction shall be within the requirements and the tables set out in the Waterproof Sealant Technical & Installation Manual (ver 1.0 August 2016) available from the manufacturer's web site [www.liquidrubber.co.nz](http://www.liquidrubber.co.nz); and, all other uses are outside the scope of this certificate.

**NOTE:** Substrates of low slope roofs may require specific design to ensure the intended performance and compliance.

B. Accessories and componentry to comply with that specified in the Waterproof Sealant Technical Installation Manual and the Waterproof Sealant Building Product Quality Plan (ver 1.00 August 2016);

C. Installation shall be performed by Liquid Rubber Holdings Ltd. trained and approved installers, who shall be supervised by a suitably qualified Licensed Building Practitioner;

D. Installation and maintenance - where required - of the Waterproof Sealant system, shall be in accordance with the Waterproof Sealant Building Product Quality Plan ver 1.00 August 2016, available on request;

#### Conditions of certification -

E. The Building Product Quality Plan for the Waterproof Sealant System shall be reviewed and subject to audit at their head office and building sites by the issuer at least once a year;

F. This CodeMark Certificate shall be revalidated on an annual basis;

G. This CodeMark Certificate is subject to S15 of the Building Product Certification Regulations 2008.

#### Technical information:

Information that forms part of this certificate or the basis for certification is available from the issuer on request and may be subject to a fee.
